PERSONAL INSURANCE INFORMATION

Primary Insurance Company___________________________ Policy or Group _________________

Name of Insured _______________________________ Relation to Patient ____________________

Insurance Address:___________________________________ Phone (_____)______-________

NOTICE OF THE POSSIBLITY OF INSURANCE DENIAL

Your insurance company will only pay for services it determines to be reasonable or necessary. If your insurance company determines that a particular service, although it would otherwise be covered, is not reasonable or necessary under its program standards your insurance company will deny payment for that service. The following services may not be covered: x-rays, re-examinations, supplies such as ice packs, pillows, exercise balls, orthotics, supplements, etc., Manual traction/mechanical traction, office visits, massage therapy, spinal rehabilitation exercises, trigger point.

A medical lien may be filed to help guarantee payment to Baldwin Chiropractic. A letter of Guarantee will be provided once lien has been satisfied. Interest will also be charged on accounts over 60 days past due at 6% per month.

As a courtesy to you, we will bill your insurance company directly. Please note that if we bill the insurance for your services, you **will not** be eligible for our **"paid at the time of service"** discount. This discount does not include durable medical equipment.

To take advantage of this discount, pay the discounted price at the time of service.

PRODUCT RETURN POLICY

We do not accept returns of any complimentary products purchased at Baldwin Chiropractic. This will include any pillows, supports, ice packs, nutritional supplements etc.

I have been informed by my doctor or his staff that in my case, my insurance company may deny payment for some future services. If my insurance company denies payment, I agree to be personally and fully responsible for payment of these services. I understand that I could choose to pay discounted fee at the time of service, but, at this time, would like to bill my insurance.

I authorize any person or institution providing care or services, or any organization in possession of insurance or benefit information to release any and all information pertaining to the care or benefits provided to me. I authorize payments to be made directly to Baldwin Chiropractic.

Note: Your health information will be kept confidential. Any information that we collect about you in our office will be kept confidential. If a claim is submitted to a payer, any health information attained in our office may be shared with the payer.

INFORMED CONSENT TO CHIROPRACTIC CARE

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care.

We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable.

Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae.

Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well-being.

It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, fractures (broken rib), disc injuries, strokes, dislocations, strains, and sprains.

With respect to strokes, there is a rare but serious condition known as a cervical arterial dissection that involves an abnormal change in the wall of an artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. This occurs in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headache. Unfortunately a percentage of these patients will experience a stroke. As chiropractic can involve manually and/or mechanically adjusting the cervical spine, it has been reported that chiropractic care may be a risk for developing this type of stroke. The association with stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments.

It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. These options may include, but are not limited to: medical care with prescription drugs, physical therapy and surgery.

Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit.

I have read, or have had read to me, the above consent. I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
